Minerals from an underground thermal lake in Hungary have been boiling and fermenting for centuries, creating a highly potent blend of sulfur, spring water and phytoestrogens. These elements have been combined into a Herbal Mud Masque that is used to detoxify, purify and stimulate the lymphatic system, releasing toxins and excess fluids from the skin. The body is first dry brushed to loosen dead skin debris, cleansed and then treated to prepare for a herbal masque and wrap. The body will get extremely spicy as circulation increases. Cool water will rinse away all herbal extracts to reveal a firmer, more even-textured skin. A highly effective and stimulating treatment that can be done twice a week as part of an ongoing program for long term results.
